

Inspect your siding, windows, and doors for any cracks or gaps. Seal them to improve energy efficiency and keep pests out.
Trim bushes and trees, and clean up your garden beds
If you have an outdoor space, give it a good clean and inspect for any repairs needed. This way, it'll be ready for spring and summer in no time.
Deep clean carpets and tile floors.
Deep clean curtain and blinds.
Deep clean your couches and mattresses.
Prep for spring allergens by changing your HVAC filters.
